Payments: Payments received after 12:00 noon may not be credited until the next day. Payments must be sent to the payment address shown on your statement and must include the remittance coupon from your statement. Payments must be made with a single check or draft drawn on a US bank and payable in US dollars, or with a negotiable instrument payable in US dollars and clearable through the US banking system, or through an electronic payment method payable in US dollars and clearable through the US banking system. Your Account number must be included on all payments. If payment does not conform to these requirements, crediting may be delayed and additional Charges may be imposed. If we accept payment made in a foreign currency, we will choose a conversion rate that is acceptable to us to convert your payment into US dollars, unless a particular rate is required by law. Please do not send post-dated checks. They will be deposited upon receipt. Our acceptance of any payment marked with a restrictive legend will not operate as an accord and satisfaction without our express prior written approval. **Authorization for Electronic Debit:** We will process checks electronically, at first presentment and any re-presentments, by transmitting the amount of the check, routing number, account number and check serial number to your financial institution, unless the check is not processable electronically or a less costly process is available. By submitting a check for payment, you authorize us to initiate an electronic debit from your bank or asset account. When we process your check electronically, your payment may be debited to your bank or asset account as soon as the same day we receive your check, and you will not receive that cancelled check with your bank or asset account statement. If we cannot collect the funds electronically we may issue a draft against your bank or asset account for the amount of the check. **Authorization for Electronic Payments:** By using Pay By Computer, Pay By Phone or any other electronic payment service of ours, you will be authorizing us to initiate an electronic debit to the financial account you specify in the amount you request. Payments received after 5:00 p.m. MST may not be credited until the next day. **Allocation of Payments and Credits:** Subject to applicable law, we will apply and allocate payments and credits among Features and Charges on your Account in any order and manner determined by us in our sole discretion. **Finance Charges: Average Daily Balance (ADB) Method for Calculation of Finance Charges (FC):** We use the ADB Method to calculate FC on your Account. Under this method, we figure the FC on your Account by applying the Daily Periodic Rate (DPR) to the ADB (as described below) for each Feature (including current transactions). Different daily periodic rates may be applied to separate Feature balances. To get the ADB for each feature, we (1) take the beginning balance for each day (including unpaid FC from previous billing periods) (2) add any new transactions, debits, or fees, (3) subtract any payments or credits, and (4) make any appropriate adjustments. *For each day after the first day of the billing period, we also add an amount of interest equal to the previous day's daily balance multiplied by the DPR for the Feature.* This gives us the daily balance for the Feature for that day and the beginning balance for that Feature for the next day. If this balance is negative, it is considered to be zero. Then, we add up all the daily balances for the Feature for the billing period and divide the total by the number of days in the billing period. This gives us the ADB for the Feature. If you pay the New Balance on this statement by the next Closing Date, then you will avoid additional FC on features included in this New Balance. If you multiply the ADB for each Feature by the number of days in the billing period and the DPR for that Feature, the result will be the FC assessed on that Feature, except for variations caused by rounding. The total FC for the billing period is calculated by adding the FC assessed on all Features of the Account. *This method of calculating the ADB and FC results in daily compounding of FC.* **Transactions Made in Foreign Currencies:** If you incur a Charge in a foreign currency, it will be converted into US dollars on the date it is processed by us or our agents. Unless a particular rate is required by applicable law, we will choose a conversion rate that is acceptable to us for that date. Currently, the conversion rate we use for a Charge in a foreign currency is no greater than (a) the highest official conversion rate published by a government agency, or (b) the highest interbank conversion rate identified by us from customary banking sources, on the conversion date or the prior business day, in each instance increased by 2%. This conversion rate may differ from rates in effect on the date of your charge. Charges converted by establishments (such as airlines) will be billed at the rates such establishments use. **Billing Rights Summary: In Case of Errors or Questions About Your Bill:** If you think your bill is incorrect, or if you need more information about a transaction on your bill, write us on a separate sheet of paper at the Customer Service address noted to the right. We must hear from you no later than 60 days after we sent you the first bill on which the error or problem appeared. You can telephone us at the number indicated on the front of this statement, but doing so will not preserve your rights. In your letter, give us the following information: 1. Your name and account number; 2. The dollar amount of the suspected error; 3. Describe why you believe there is an error. If you need more information, describe the item you are unsure about. You do not have to pay any amount in question while we are investigating, but you are still obligated to pay the parts of your bill that are not in question. While we investigate your question, we cannot report you as delinquent or take any action to collect the amount you question. If you have authorized us to pay your bill automatically from your checking or savings account, you can stop the payment on any amount you think is wrong. To stop the payment your letter must reach us three business days before the automatic payment is scheduled to occur. **Special Rule for Credit Card Purchases:** If you have a problem with the quality of goods or services that you purchased with a credit card, and you have tried in good faith to correct the problem with the merchant, you may not have to pay the remaining amount due on the goods or services. You have this protection only when the purchase price was more than \$50 and the purchase was made in your home state or within 100 miles of your mailing address. (If we own or operate the merchant, or if we mailed you the advertisement for the property or services, all purchases are covered regardless of amount or location of the purchase.) **Credit Balance:** If a credit balance (designated CR) is shown on this statement, it represents money owed to you. If you do not make sufficient charges against the credit balance or request a refund, we will, within 30 days after expiration of the six-month period following the date of the first statement indicating the credit balance, issue a check to you for the credit balance if the amount is \$1.00 or more. **New York residents** may contact the New York Banking Department to obtain a comparative listing of credit card rates, fees and grace periods by calling 1-800-518-8866.
